ABSTRACT

During a 5-day period in 1990, a total of 1,401 reciprocal borrowers in the North Suburban Library System (NSLS) received questionnaires asking about their choice of library and other aspects of borrowing behavior to provide data on the reciprocal borrowing characteristics and patterns within the system. This survey was designed to identify the major variables for use of the Reciprocal Borrowing Program (RPB) and to determine the relative priorities of importance for individuals using RBP in the system. The variables studied included the reason for the library visit, the sex and age group of the reciprocal borrowers, the peak times for specific types of borrowing, and the correlation between the amount of reciprocal borrowing and a library's collection strength and accessibility. Specific libraries were identified as to their lending/borrowing ratios, as well as the direction of lending flows from the host libraries. Those surveyed indicated which type of media they were more likely to borrow, how they had learned about reciprocal borrowing, and their reactions to and complaints about the reciprocal borrowing feature. The narrative report includes a background statement; an executive summary; the survey instrument; frequency results; brief descriptions of the rationale for the study and the methodology used; an explanation of the study sample; and breakdowns of the data and discussions of the reasons for the library visit and the choice of library, the number of items borrowed, use of multiple libraries, geographic patterns of use, materials borrowed, and sources of knowledge of reciprocal borrowing. Also included in this document are a summary of open-ended comments by respondents, and three appendices: "Meetings with NSLS Library Personnel (a report on focus group meetings with library directors and circulation staff)"; "Open-Ended Comments by Home and Host Libraries"; and "Home Library 'Data Dump.'" The appendices make up the major part (451 pages) of the report. (MAB)

BACKGROUND

The Board of Trustees of the North Suburban Library System (NSLS), acting upon a recommendation of its Reciprocal Borrowing Program (RBP) Task Force, obtained a Library Services and Construction Act grant in 1989 for the purpose of expanding the knowledge and identification of the major variables for use of the Reciprocal Borrowing Program, and the determination of the relative priorities of importance for individuals using RBP in the North Suburban Library System. The purpose of the grant was primarily to establish a prioritized list of reasons revealing why people use the Reciprocal Borrowing Program in the North Suburban Library System. This study would provide needed information for future studies and recommendations regarding the Reciprocal Borrowing Program. Goals and objectives of the study were set forth as follows:

Goal One:

Identify the major variables applying to the direct personal access by borrowers to the collections of public libraries within the North Suburban Library System.

Objectives:

1. Develop an extensive list of primary reasons why patrons borrow materials through reciprocal borrowing privileges.
2. Determine the useful relationships and positive benefits.
3. Determine relative significance of choices of libraries used for reciprocal borrowing.
4. Identify the perceptions of library staff members about the reasons that patrons use reciprocal borrowing.
5. Identify the characteristics of those who use reciprocal borrowing (within the boundaries of confidentiality).

Goals Two and Three of the study as stated in the grant proposal were determined by the Advisory Committee for the project to be anticipatory of future study and work.

Able Consultants of DeKalb, Illinois, was selected to conduct the RBP study. The report of the consultants follows.

EXECUTIVE SUMMARY

RECIPROCAL BORROWING PATTERNS IN THE NORTH SUBURBAN LIBRARY SYSTEM

- This study sought to assess reciprocal borrowing characteristics and patterns within the North Suburban Library System (NSLS). With reciprocal borrowing, cardholders at any of the 45 public libraries in the system may borrow from any other.

- Key library personnel were invited to focus discussion groups in the Fall of 1989 (see Appendix 1 for subreport).

- All reciprocal borrowers at NSLS during a five-day period received questionnaires asking about their choice of library and other aspects of borrowing behavior. Days and times were selected to produce a representative sample of reciprocal borrowers.

- A total of 1,401 completed questionnaires were received, about three-fourths of estimated reciprocal borrowers at the study times. If assumed to be a random sample, the maximum error is plus or minus 2.7% for the full sample.

- The sample was 62% female and the median age of reciprocal borrowers was 37. Sunday was the period of greatest borrowing.

- The leading reason for the library visit, by far, was to borrow leisure time material, with over half (54.7%) citing this reason. Others mentioned personal needs (31.4%), educational coursework (26.8%), current work (21.8%) or obtaining children's materials (18.3%). The "average" person gave two reasons for their visit.

- School-age children tended to visit the library for educational coursework. Young adults visited for both coursework and leisure, while for persons aged 30 and older, obtaining material for leisure use was dominant.

- Men were somewhat more likely to seek work-related items, while women were more likely to bring children, acquire children's items or attend meetings.

- Monday night was the peak time for school, work and children-related borrowing. Saturday morning showed the highest proportion of persons acquiring material for leisure use or personal needs.

- Libraries with greater amounts of reciprocal borrowing were somewhat more likely to have patrons borrowing for educational coursework or work reasons. Libraries with fewer reciprocal loans were somewhat more likely to have persons acquiring children's items, or leisure materials or using equipment.

- Collection strength appears to be the strongest factor in library choice for reciprocal borrowers. Nearly two-thirds cited reasons related to the size or nature of the collection, notably that the host library has a "better overall collection."

- The second strongest factor in library choice was accessibility, such as reasons related to proximity to home, work or errands.

- Sixty-two different reasons for using RBP were given by respondents.

- The group borrowing the most items was those bringing children to get leisure materials, a median of 5.1 items.

- In total, reciprocal borrowers used their home and host libraries at about the same amount.

- Among the respondents, 36% had been to a college library (66% in the 18-29 age group) and 23% had been to a school library (74% of those 6-12 and 68% of those 13-17) during the past year.

- During the study period, the largest lenders were Schaumburg, Arlington Heights, Indian Trails, Skokie and Cook Memorial. Schaumburg and Waukegan had significant activity with very high lending/borrowing ratios. On the other hand, Warren-Newport and Vernon exhibited especially low lending/borrowing ratios.

- The largest flows were from different libraries outside NSLS to Schaumburg, from Vernon to Indian Trails and from Chicago to Lincolnwood, Niles and Evanston.

- Almost 80% of survey respondents indicated that they were borrowing books. Records, cassettes and compact discs (11%) were next most popular, followed by magazines (7%) and videotapes (6%). Magazine borrowing was highest among those under 30 and audio borrowers were more likely to be male.

- The two leading ways for persons to have learned about reciprocal borrowing were from the home library staff when they received their cards and from the host library when they asked whether they could borrow.

- Open-ended comments given by the respondents were primarily positive. The major complaint was about limitations on the number or type of items which could be borrowed.

The survey instrument on the following page appears as it was designed and distributed, but, where it was possible to incorporate percentages of responses, they have been included for the reader's convenience.

Full results may be found in the frequency tabulations which follow the survey questionnaire.

Introduction

This study sought to assess the current status of reciprocal borrowing within the North Suburban Library System (NSLS). Reciprocal borrowing is a privilege extended to cardholders at any of the 45 public libraries in the system, allowing them to borrow from any library besides their "home" library.

An early part of the study consisted of a series of focused discussions and interviews with key library personnel in NSLS. The purpose of these focus groups was to determine staff perceptions regarding motivational factors for RBP. The report of these meetings is in Appendix 1.

A survey of reciprocal borrowers was conducted to determine the characteristics of reciprocal borrowers and especially the reasons why the individual chose to visit the "host" library. Other aspects of the study dealt with reasons for library visits, use of multiple libraries, source of reciprocal borrowing knowledge and geographic patterns of borrowing.

The North Suburban Library System engaged Able Consultants, a DeKalb-based firm specializing in analysis of library operations, to conduct the study.

Methodology

The basic methodologies designed to accomplish the goal and objectives of the RBP study were two: (1) the focus group discussions described below, and (2) a survey of RBP users.

A survey instrument was drafted and tested. The most critical question regarding the survey document was whether or not to use open-ended questions in some places, or provide checklists. Specifically, the most important question of the survey, why individuals use RBP, was carefully tested with over 100 respondents to determine if an open-ended format for some questions would be feasible. When open-ended questions are used, it is more likely that respondents will provide a more precise answer. The testing showed that it would be possible to use open-ended questions in the survey instrument, and the final questionnaire included three such questions in addition to checklist response questions.

All reciprocal borrowers at all NSLS libraries received a questionnaire at certain designated times from March 31, 1990 through April 4, 1990. Those times are shown below in Table 1.

Tuesday	April 3	11:00 a.m. - 2:00 p.m.
Wednesday	April 4	3:00 - 6:00 p.m.

These days and times were selected to produce a representative sample of periods so that should use or user patterns vary, a variety of days and times would be represented.

Library personnel were instructed to place the questionnaires at each circulation work (checkout) station, along with a supply of pens or pencils to be used. When borrowers presented a card from another public library when checking out materials, they were given a questionnaire and asked to complete it and return the survey to the desk. Borrowers were asked to participate in the following way:

> "We are asking people who are borrowing materials with cards from other libraries to complete a brief survey. Would you be willing to do this in the next few minutes? Here is the form. Please return the questionnaire here."

Borrowers who did not desire to participate were not coerced to take part.

The Sample

A total of 1,401 completed surveys was received. Though we do not know the exact proportion of reciprocal borrowers at these times who participated, an estimate can be made. On an "average" day, an estimated 915 persons borrow from a library other than their home site in the NSLS. The study times approximate the equivalent of two full days. Therefore, we estimate that about three-fourths (76.6%) of reciprocal borrowers at these times are represented in the study.

Sunday was the leading borrowing period with 32.0% of the total borrowing. However, Sunday openings typically exceeded the 2-3 hour periods surveyed on the other days. Only 33 of the 45 public libraries in NSLS were open on Sunday at the time of the survey. The other periods were fairly evenly distributed, ranging from 14.8% on Wednesday afternoon to 19.1% on Saturday morning.

TOTAL		1,401	100.0%

The sample was dominantly female. Of those responding, 62.1% were female and 37.9% male. Over 100 persons did not answer the "back" page of the questionnaire, perhaps being unaware that the survey should be turned over.

The age distribution of the survey sample is shown below. Median age for the group was 36.9 with the 30-44 age group as the single largest cohort of borrowers.

65+	89	6.4%
No Answer	120	8.6%
TOTAL	1,401	100.0%

When samples and sampling error can be assumed to be random, as in this case, the potential error is measurable in terms of probability. In this case, sampling error can be derived only if we assume that those participating represent a random sample of all reciprocal borrowers. On this basis, for the full sample of 1,401 individuals, the maximum error is known to be plus or minus 2.7% (95% of the time). For questions where the response is nearly unanimous, the error is less. The standard error increases when subgroups are smaller, so that caution must be exercised if any inferences are based on any subgroup; e.g., one of the categories of age groups.

Reasons for Library Visit

Survey participants were asked what the main reasons were that they came to the library on that day. Multiple answers were allowed. A total of 2,966 responses were indicated by the 1,401 respondents or 2.1 each. Multiple visit reasons were most common on Saturday morning (3.1) and for persons aged 13-17 (3.0). Single purpose visits were most likely among the elderly.

The leading reason given for the library visit, by far, was to acquire leisure time material, with over half (54.7%) of respondents citing this reason. Significant numbers of persons used the host library that day for information related to personal needs (31.4%), educational coursework (26.8%), current work (21.8%) or for obtaining children's materials (18.3%). Fewer persons went to study (9.7%) or brought children to get materials for school assignments (9.2%), intended to use a copy machine, typewriter or other equipment (7.7%) or brought children to get leisure reading (7.7%). Receiving fewer mentions were gathering teaching materials, attending a program or meeting, socializing or bringing someone other than children to get leisure materials. "Other" responses written in most often were "return materials" or "read magazines" (see Table 5).

Visit reasons differed somewhat according to the age and sex of the borrower. Gathering information related to educational coursework was said to be the primary reason for visits by school-age children. Among those 6-12, 42.9% visited the library for school-related purposes while 76.7% of those 13-17 went for schoolwork sources. Youth 6-12 also visited host libraries for leisure materials (34.2%), children's materials (31.4%), studying (31.4%) and personal needs (25.7%). Teens in junior and high school acquire items for leisure use (45.8%), or work (35.8%) or came to study (32.5%). Young adults also showed a high proportion of visits for educational coursework (45.9%) although acquiring material for leisure use is slightly higher at 46.8%. Use of the library for work materials is also common (28.2%) in this group.

For persons 30 and older, finding material for leisure time use is dominant, ranging from 55.0% in the 30-44 age group, to 60.6% among those 45-64 and 71.9% for the elderly. Secondary visit reasons for persons 30-44 include personal needs (28.9%), children's materials (28.0%) and work related (21.2%). Personal needs represent the only significant use factor in addition to leisure use for those 45-64 (38.0%) and 65+ (31.5%).

Thus, overall, leisure borrowing appears to increase with age, while borrowing related to educational coursework tends to decline with increasing age.

Sex of the patron does not significantly affect visit reasons except that men are somewhat more likely to seek work-related items (27.6% vs. 18.4%), while women are more likely to acquire children's items (21.9% vs. 12.8%), bring children to the library or attend meetings.

Sixty-two different reasons were given by respondents for visiting the host library on that particular visit.

Of some possible interest is the set of interrelationships found among visit reasons. One of six (17.6%) reciprocal borrowers came for both leisure materials and information for personal needs, while one in nine (11.1%) sought leisure and work materials. Table 6 shows the most popular combinations for visit reasons.

Sometimes the naming of one visit reason triggered the existence of a second one. For instance, 90.5% of those who brought someone other than children for leisure materials also took out leisure materials themselves. Likewise, 83.0% of those who came to socialize and 78.1% of persons attending a meeting also took out leisure materials. Another relationship was that 69% of those visiting because of educational coursework also came to study (see Figure 2).

Monday night was found to be the peak time for school, work and children-related borrowing, in that the proportion of children and young adults 6-29 was the highest: 46.8% of reciprocal borrowers at that time. This could, however, be a reflection of the general evening pattern that exists, since Monday was the only weekday evening included in the survey. Also, the predominance of students may not be because they prefer this time, but rather because others do not come on Monday night. On the other hand, Saturday morning shows the highest proportion of persons acquiring material for leisure use or personal needs. Older persons (30+) were present in the largest amounts on Saturday morning and at Tuesday noon.

Libraries with greater amounts of reciprocal borrowing are somewhat more likely to have patrons borrowing for educational coursework and work reasons. Libraries with fewer reciprocal loans are somewhat more likely to have persons acquiring children's materials or children's leisure items, borrowing material for leisure time use, or using equipment. Overall, those borrowing reciprocally from larger libraries tend to be younger than persons at centers with less reciprocal borrowing.

Libraries were divided into four categories according to the numbers of reciprocal loans they generated. These are Small, Medium, Large, and Exceptionally Large (S, M, L, and XL in Table 7). There were 24 libraries classified as Small, 10 as Medium, eight as Large, and 3 as Exceptionally Large.

Reason for Library Choice

Why do library patrons choose to borrow from a library other than their home library? This was the key question to be answered by this study.

Results, as shown in Table 12, reveal that perceived collection strength appears to be the strongest factor in library choice for reciprocal borrowers. Nearly two-thirds (64.4%) of respondents cited reasons related to the size or nature of the collection, broken down as follows:

Table 12

COLLECTION STRENGTH REASONS FOR LIBRARY CHOICE

TOTAL REASONS RELATED TO COLLECTION STRENGTH	903	64.4%

The perception that the host library has a "better overall collection" is the largest single reason cited, named by 30.8% of respondents. Related reasons include greater variety of formats (7.4%), more new books (1.6%), and larger collection (1.1%). Reasons related to a specific title or subject were named by 19.4%, led by "better collection in a specific area" (10.3%) and "specific title not in the collection of home library" (8.1%).

The second strongest factor in reciprocal borrowing choice appears to be related to accessibility, these factors having been named by 37.3% of patrons. These include proximity to home (18.3%), employment (9.4%), family errands/lessons (6.7%), school (1.5%), shopping (1.1%), and commuter transfer (0.3%). An additional 2.9% of study participants say that they used to live, work or go to school in the host library's community.

The third set of factors given for choosing a certain library relates to the staff's effectiveness in accommodating patrons. These reasons were named by 7.0% including staff friendlier (4.0%), more obliging (2.7%), and more informed (0.6%).

Most of the remaining factors specified related to convenience or preference for the environment of the host library. These included more convenient hours (3.9%), ambience (2.4%), lack of congestion (1.5%), better layout and signage (1.3%), and parking (0.7%).

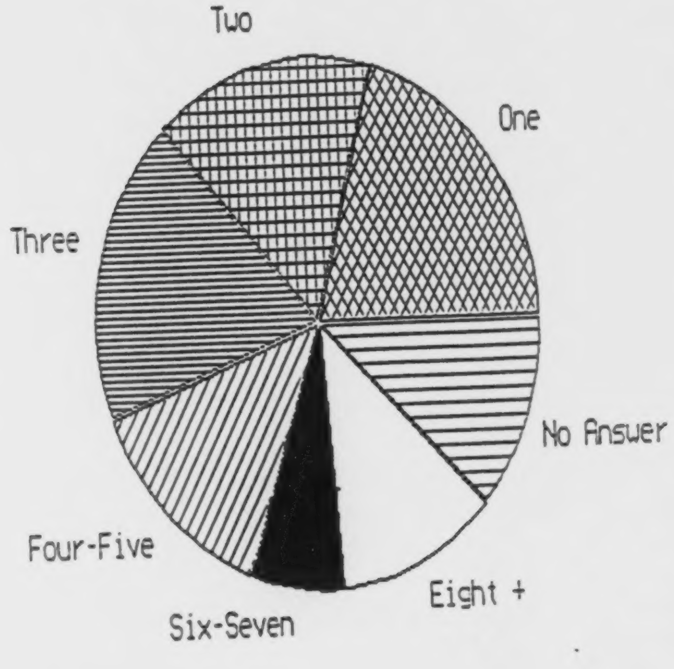
NUMBER OF ITEMS BORROWED



Number of Items Borrowed

The median number of items borrowed by reciprocal borrowers was found to be 2.9. However, the most "popular" number of items (the mode) was one (20.5%), followed by three (18.8%) and two (16.2%), although one of twelve (8.4%) borrowers took out nine or more items.

The group borrowing the most items is those who bring children to get leisure materials. These borrowers have a median of 5.1 items, while one-fourth (25.8%) took out nine or more items at one time. Also relatively high are those acquiring children's materials at 3.9. Table 17 reveals the median number of items borrowed by those naming major visit reasons.

The lowest level of items borrowed was shown for those attending a program or meeting. When reasons for choosing the host library are considered, those who came to find a specific title not in the collection of their home library exhibit a relatively low median, just 1.6 items.

Analysis of other factors does not reveal major variations in the amount of material borrowed. Women tend to borrow somewhat more than men.

Frequent borrowers take out a few more items than infrequent borrowers. Age makes little difference, although the elderly are slightly low at 2.5, while persons 30-44 take out 3.1 items, somewhat more than the usual pattern.

Use of Multiple Libraries

Do reciprocal borrowers use their host library in place of their home library or just "supplement" their library use in this way? Table 19 compares home and host library use for survey participants. Overall use appears similar in terms of frequency.

A more insightful look can be gained by creating a matrix of results such as that appearing below in Table 20. This shows that 35.2% of the sample uses home and host libraries at approximately the same levels. 31.1% visit the host library more than their home library, while 32.5% use their home library more than the host library. Another 1.2% did not specify their home library.

Reciprocal borrowers also revealed what other kinds of libraries they had used in the past year. Of course, many said that they had used another public library. For other library types, 35.5% said that they had been to a college or university library, while 23.2% said that they had utilized a school library.

College library use reached as high as 66.1% in the 18-29 age group, while school library use stood at 74.2% in the 6-12 group and 68.3% in the 13-17 age group. Men (14.8%) are somewhat more apt than women (8.3%) to use company libraries.

Geographic Patterns of Use

Table 22 summarizes the relationship of the home and host roles for all 45 public libraries within the North Suburban Library System. The largest loaners are shown to be Schaumburg (121), Arlington Heights (107), Indian Trails (94), Skokie (70) and Cook Memorial (64). On the other hand, these library districts yielded the greatest numbers of reciprocal borrowers: Palatine (72), Niles (72), Vernon (70), Warren-Newport (57), Arlington Heights (50) and Evanston (49).

In terms of the ratios of lending to borrowing, the highest ratios were seen at Crystal Lake (21.00), Schaumburg (11.00), Waukegan (5.63), Highwood (5.50), and Gail Borden (4.33). Of these, only Schaumburg and Waukegan had frequencies large enough to be assured that the pattern is valid. Low ratios, indicating that library cardholders tend to go elsewhere, were shown for Zion-Benton (.00), Warren-Newport (.07), McHenry-Nunda (.25), Dundee (.36) and Vernon (.26). Only Warren-Newport and Vernon in this group exhibit numbers large enough to verify the pattern. In addition, about 15% of reciprocal borrowers were found to come from outside the system, 8.0% from Chicago and 7.1% from other library areas.

Table 23 is a matrix of borrowing and lending frequencies among all NSLS libraries. The twenty largest flows are shown in Table 24. Virtually all of these flows were to contiguous libraries.

The largest movement is revealed from outside the system to Schaumburg, for which 52 cases were recorded, the major components of which were from Roselle (23) and Poplar Creek (10). The next largest flows are those from Vernon to Indian Trails and from Chicago to Lincolnwood, Niles and Evanston. Notable also is the movement in both directions which takes place between Indian Trails and Arlington Heights.

Materials Borrowed

When asked what kinds of materials the respondent checked out, over three-fourths (79.9%) indicated they were borrowing books. Records, cassettes, and CDs were the next most popular items; however, only 11.3% of patrons checked these out. Other materials charged were magazines (7.4%), videotapes (6.4%), Computer software (0.4%), and paintings or other art (0.3%). "Other" materials checked out included sheet music, puzzles, pamphlets, travel guides, and newspapers. Of those who checked out magazines, 34.7% felt that the host library had a better overall collection than their home library.

Records, cassettes, CDs	158	11.3%
Videotapes	90	6.4%
Computer software	5	0.4%
Paintings or other art	4	0.3%
Other	20	1.4%

Borrowers of records, cassettes or CDs borrowed the most total items (4.1), followed by videotapes (3.5) and magazines (3.4), as compared to book borrowers at 2.9. Magazine borrowing is highest among those under 30 and record, cassette, and CD borrowing is much higher among men (18.1%) than women (8.7%).

Figure 9

LEADING SOURCES OF KNOWLEDGE OF RECIPROCAL BORROWING

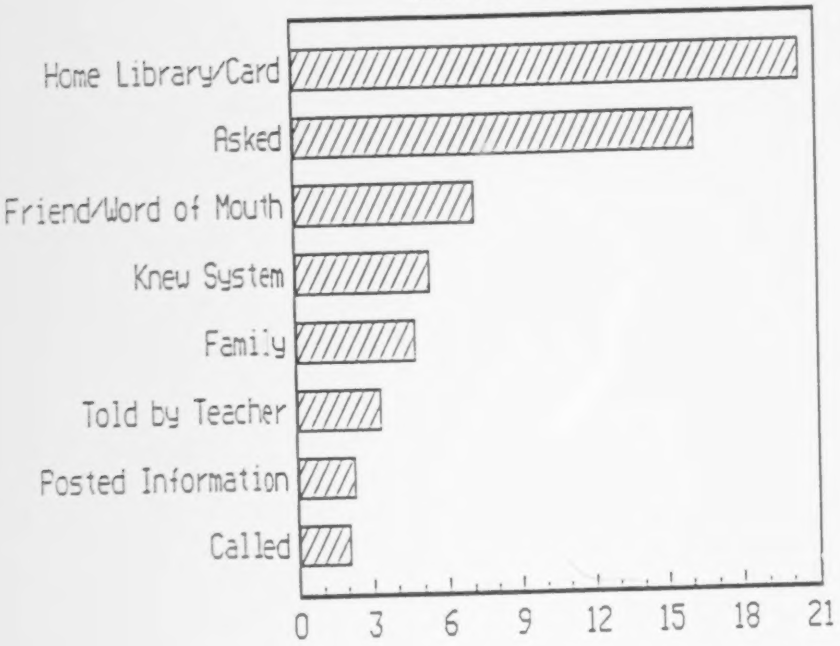

Figure 10

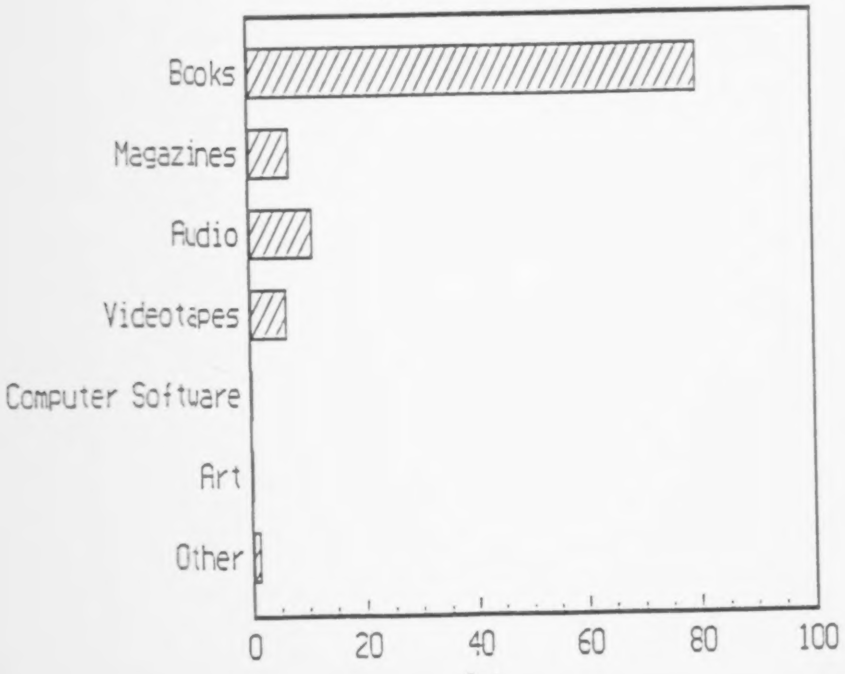
KINDS OF MATERIALS BORROWED



The low borrowing rates for audio materials, videotape, art, and computer software could, in part, be due to the fact that some of the host libraries have borrowing policies which do not allow nonresidents to check out materials other than books and magazines. Additionally, many of the libraries do not have all of these items in their collection. Seventeen do not have computer software, eight do not have compact discs, and seven do not have videotapes.

Source of Knowledge of Reciprocal Borrowing

Respondents were asked how they learned they could borrow materials from other libraries. Table 26 shows the responses. The two leading sources were being told by the home library staff when they received their card, with 20.4% of respondents learning of reciprocal borrowing this way, and asking when they were in the host library (16.2%). Other major sources included a friend or word of mouth (7.2%), knew about the system (5.4%), family (4.8%), and school or teacher (3.4%).

By age, 34.3% of individuals 6-12 said that they found out about reciprocal borrowing from a family member. Persons 30-44 were somewhat more likely than others to have learned from staff in their home library.

Open-Ended Comments

Lastly, study participants were given an opportunity to provide comments on any library topic of their choice. Most of the comments made were overwhelmingly positive, including praise for the staff, service, collections, programs, or the availability of reciprocal borrowing. The major complaint, cited by 51 persons, was concern over limits of the types of items which could be borrowed. A few of these persons also objected to limiting the number of items which could be checked out. The need to enhance collections was the other major suggestion made for improvement. The full verbatim comments can be found in Appendix 2.

APPENDIX 1

MEETINGS WITH NSLS LIBRARY PERSONNEL

COMMENTS REGARDING RECIPROCAL BORROWING PRIVILEGES AT MEETINGS HELD WITH PERSONNEL FROM PUBLIC LIBRARIES IN THE NORTH SUBURBAN LIBRARY SYSTEM

Nine meetings were held with library directors and circulation staff regarding attitudes about RBP. The meetings were held on September 19 and 22 and October 13, 1989. Four meetings were with directors and four meetings with circulation staff. The single meeting on October 13 was offered for the convenience of NSLS staff members who had been unable to attend the earlier meetings.

Thirty-eight public libraries were represented at the meetings, some with two or more persons in attendance. See appendix for list. The meetings were conducted by Able Consultants and centered on focused questions sent to the participants in advance of the meetings. Each meeting lasted about an hour. The largest meeting was the very first with circulation personnel on September 19. There were 18 people in attendence at that meeting. The lowest attendence was two directors at the last meeting on September 22.

The overall reaction to the meetings was one of high interest, coupled with a predominantly supportive attitude about reciprocal borrowing as a system service. Certain ideas and comments about RBP were expressed in an almost universal fashion by people in every meeting.

The list of focused questions follows, with a composite of responses from the various meetings. The ideas expressed by directors and circulation staff were not significantly different, and so have been combined. The responses are not listed in any particular order.

1. What are the primary reasons people give as a reason for using reciprocal borrowing when such information is volunteered?

   - The host library is closer to work, home, or both.
   - Library boundaries are "misplaced."
   - Name of library (usually district libraries) is confusing.
   - Availability of material, both general and specific.
   - Small libraries may lack wanted amenities, such as typing and computer facilities, study space, programs, serices, materials in certain formats, video college courses, etc.
   - Friendlier staff.
   - Better parking.
   - Unlocked washrooms.
   - Video available for loan.
   - More convenient hours, e.g., Friday and Sunday evenings.
   - Children's programs.
   - Fewer restrictions on RBP.
   - Good reference service.
   - Convenience involving traffic patterns; e.g., may choose to walk to a nearby host library if living on boundary, or may drive to a host library on a regular route for shopping or work.
   - Many people simply feel it their **right** to use all libraries.
   - Necessity for speed in getting a specific title; e.g., may go to a number of libraries in one day to find a particular book.
   - Will go to a particular library if the computerized circulation system shows the specific title to be in at that library.
   - Some patrons perceive certain libraries in certain ways (e.g., small libraries as friendly and large libraries as having better collections) and use them according to individual perception.
   - Patron perceptions regarding subject strengths of collections in various libraries; e.g. business, periodicals on microfilm.
   - Heavy lunch hour use shows importance of work location.
   - School assignments.
   - RBP use is associated with shopping in some instances.
   - Some patrons are "library junkies" and regularly visit many as part of a personal spare-time "hobby."
   - Closeness to commuter train station stimulates some RBP use.
   - New/remodeled facility may attract new RBP patrons, as well as bring borrowers back to a home library.
   - Differences in policies of charging fines.
   - Restrictions on number of RBPs; fewer restrictions may atttract some borrowers.

2. Do users of reciprocal borrowing give different reasons at home library than from "host" library?

- Very likely to return RBP books in the book drop, so host librrary staff do not have opportunity to discuss.
- May say, "I just happened to be there."
- Larger collection elsewhere.
- Heavy readers more likely to use RBP.
- Advantages of larger library collections vs. small library friendliness.
- Parking available.
- Special collections.
- Programming.
- Patron may be "in trouble" in the home library, e.g., with unreturned materials or unpaid fines.
- Don't want higher taxes at home so will seek materials elsewhere rather than support local library improvement.
- Children's services are available at the host library.
- Convenience.
- Special collections.
- Patron may say at host library: "You're nicer here." Patron may say at home library: "They have a better collection."
- Hours and schedule may be more important than actual physical distance.
- Students need specific materials.
- Public-use typwriters and computers.

3. If particular libraries are used in a pattern by a number of people, what do you perceive as the reasons?

- Friday nights popular with business people, families and video borrowers.
- Sundays very busy, particularly before and after football games.
- Programming an attraction.
- People come after five, business people come during work and especially during lunch hours.
- In daytime, heavier use from retired people, young parents.
- Men may say, "I've come to get books for my wife."
- Where people work and shop a factor.
- Concept of patron loyalty important for home library use.
- Good reference and readers' advisory services may draw.
- Personal contact important.
- A new library building will draw RBPs; conversely, inconveniences during construction may drive them from home.
- Closeness of library.

3., cont.

- . If a home referendum fails, RBP use may increase elsewhere.
- . Hours and schedules important.
- . Automated systems sometimes draw RBPs to seek specific title.
- . Problems with library name identification.
- . Traffic patterns.
- . No seasonal impact, except school-related use, e.g., science fairs.
- . Where children go to school can make a difference if library boundaries and school boundaries are different.
- . Bibliographic instruction, especially for kids.

4. Are particular liibrary materials more likely to be borrowed reciprocally than others? For example, children's books, popular genre fiction, business materials.

- . Toys, games, c.d.s and videos are drawing cards.
- . Business materials at Schaumburg.
- . Occult materials(coupled with high theft rate).
- . Periodicals, both circulating and noncirculating.
- . Children's pleasure reading.
- . Students wanting curriculum-related materials.
- . Staff may recommend other libraries for some materials.
- . Mysteries sometimes a draw.
- . Civil war books draw.
- . Cookbooks are popular.
- . Book club reading selections.
- . Student (mostly secondary level) assignments.
- . Best seller waiting list shorter elsewhere.
- . Newer materials.
- . Talking books.
- . Staff and patron perceptions of libraries' strengths important.
- . Non-fiction for specific titles.
- . Patterns of library use can be seen with more sophisticated library users. For example, adults may use home library on weekends with their children, but regularly borrow business materials from another library with a stronger business collection, or go to a smaller library where there is less competition to get best sellers.
- . Balance of collection important.

5. Do other library services, such as business reference, draw individuals to certain libraries who also then use reciprocal borrowing?

   - Speed in getting new books on shelves may encourage RBP.
   - Children's programs.
   - Reference and computer services.
   - Videos, particularly popular/entertainment, may be a draw.
   - Magazines.
   - Chicago residents dislike onslaught of homeless at the Chicago Public Library.
   - Color copier availability.
   - Meeting rooms for groups, small study rooms.
   - Use of libraries by tutors for adult literacy programs.
   - Staff expertise in some areas, such as genealogy.
   - Government publications.
   - Phone books.
   - Legal materials.
   - Art and architecture.
   - Special interest collections.
   - Handicapped specialty, e.g., equipment, a draw at Skokie.
   - RBPs use many library services beyond borrowing books.
   - Falsification of identification records can be a problem with RBPs.
   - Adult programming can be a draw.

6. Have you observed any patterns of reciprocal borrowing, e.g. seasonal, in the amount and kind of reciprocal borrowing? If so, what are they?

   - Relationship to major school projects, e.g. Black history month.
   - Library's own programming efforts important, e.g. summer summer reading programs.
   - Street repair, in addition to actual building remodeling can affect RBP.
   - Some vacation use. Libraries near resort areas, for example, may attract users in summer.

7. In what ways does reciprocal borrowing affect your library? Your patrons?

   - More clerical/staff time is taken with RBPs.
   - Confusion over circulation periods, grace periods, fines.
   - Limits may have to be set on RBPs because of fear of "raiding" by home library patrons.

7., cont.

- In some cases RBP patrons may discover ways around the system, such as avoiding fines.
- Libraries may be busier because of RBP.
- Circulation procedures are sometimes complicated by RBP.
- Confusion/bad public relations over different library regulations regarding RBP for different formats, e.g. video.
- RBP is, for the most part, easier as a procedure than interlibrary lending.
- Overall, good public relations for individual libraries, either home or host.
- RBP can help establish artificial boundaries for libraries.
- Kids go to libraries where supervision is not strict.
- RBP can have an effect on local library development, both positive and negative.
- Patrons are mostly enthusiastic about the concept of RBP.

8. How do people become aware of reciprocal borrowing privileges?

- Library staff encourages/informs patrons about RBP.
- Schaumburg distributes pro-referendum literature for neighboring communities to help encourage communities to accept responsibility for developing their own libraries.
- All registrants for new cards are told about RBP.
- Reference staff may explain RBP when referring patrons to other libraries with their information needs.
- Need for NSLS brochure about RBP and other services expressed.
- Libraries include items in newsletters about RBP.
- Some libraries stamp/print RBP information on library cards.
- There is obviously some patron word-of-mouth about RBP.
- People taking classes find out about out about RBP from teachers and other students.
- Need for additional information about RBP.

Additional question for directors:

Have you received comments from staff, board members, or library users about reciprocal borrowing as a service? If so, what is the nature of these comments?

- Such comments may point up need for garnering support for local referenda.
- Mainly positive reactions about RBP.
- Some libraries have enforced restrictions on RBP because of concerns expressed re "raiding."

Additional question, cont.

- Such restrictions can be helpful in educating the public about RBP.
- Interlibrary loan cannot be easily separated from RBP as a concept and process.
- Patrons want to be able to get their library cards at any library, not just home library.
- Use of all library services/facilities important.
- RBP should be evaluated as a system service, not as an individual library service.
- Overall support for RBP in spite of additional record keeping necessary.
- Feeling that title availability is not the reason for the popularity of RBP.
- All libraries have patrons who use RBP, not just net lender libraries.

Summary

The discussion in these group sessions was usually discursive but very positive about the overall values of reciprocal borrowing. Participation in each discussion was quite general, with no evidence of domination by one or two persons, as can sometimes happen. There was less difference in the nature of responses from directors and from circulation staff than might have been anticipated. As noted above, comments were often made in response to later questions when they might more appropriately have been made earlier, but this suggests that pparticipants continued to consider a question and offered their response later.

Library directors were, as might be expected, concerned about the budget and policy implications of any possible changes in how reciprocal borrowing is handled now. Although several said they greatly valued the service, one or two indicated that they relied on the current income they receive as net lenders and would be constrained if that funding were not available. Some directors were concerned about the System's use of the term "debtor library" and felt they had encouraged patrons to enjoy reciprocal borrowing as a service and then had been singled out as over-users. There was also some feeling that library personnel differed significantly in how they made patrons aware of the possibility of reciprocal borrowing, some strongly encouraged it and others mentioning it only reluctantly.

Circulation staff members focused particularly on the problems of different ways of handling reciprocal borrowers. They noted that, within the past couple of years, the procedure for overdue fines on materials borrowed reciprocally had changed as the result of discussion at a System meeting, but information on this change was evidently not generally available, and the change has not been universally implemented. They also commented on differences in how registration may be handled. In some instances, the library which a patron visits will handled the registration process and procure a card from the home library, but more commonly the home library requiires at least an initial visit by the resident to register for a library card.

Different procedures and policies were frequently mentioned, as the listed responses indicate. An interesting one was the library director's requiring all library staff members to borrow materials on their library cards. Since several were not residents of the community, their loans became reciprocal borrowing loans and had an impact on the library's tabulation of RBPs.

In several of the groups, there was at least passing mention of the desirability of a universal borrower's card. There was also usually a very strong statement about the need for some informational publication about services, hours, etc., in all NSLS libraries, or at least in all NSLS public libraries. Library personnel want to have these in sufficient quantity to distribute to library users.

The consultants note that there were few surprises in the discussions, and that reasons for use of reciprocal borrowing are not significantly different from those that would be given in other geographic areas. There are, of course, a few exceptions to this: public transportation patterns have very limited, if any, impact on NSLS use; the good quality of school libraries evidently leads to somewhat less use of RBP for school assignments;; there appears to be a very limited pattern of seasonal borrowing, and the problem of patrons' uncertainty about which library actually is their home library may be somewhat greater than in other settings.

The values of these discussions lay in the confirmation of the strong support for reciprocal borrowing as a standard system service and of cooperative efforts that would be made to sustain it. Also, library personnel offered numerous suggestions for later parts of the consultants' study. On several occasions, participants commented on how good it was to discuss professional issues with colleagues whom they had seldom or never met. There is no question of the interest which these alert and sophisticated library personnel have in issues relating to reciprocal borrowing.

Q17. Why did you choose to use this library today rather than your "home" library? (HOST LIBRARY)

- I only live one minute from here and 15-20 minutes from the home library.
- Barrington Library didn't have the book I wanted.

- The Arlington Heights Library gives excellent service.
- Thank you for the generosity to Mt. Prospect.
- It is also close to work and I wish I could take out videos etc and not be restricted. This is one of the best libraries I've been to.
- Freedom to borrow books at any library anytime (limited to 3 books at one library at a time) and anyplace. Also purchase a master library card for use in all libraries at a reasonable fee.
- Please allow nonresidents to use the personal computers. They often sit idle. You also have the only Macintosh computer in the area that I am aware of.
- You have the best selection of materials and machines in the area; also the people here (personnel and patrons) are more courteous.
- Would really appreciate being able to take out more books at a time.
- I enjoy the depth of materials and service level of Arlington Library.
- Great library.
- I would like to be able to check out records and cassettes.
- Arlington Heights Library only allows up to 3 books/card for checkout and will not allow any use of any AV equipment without their card - even if the computer or equipment is not being used or checked out.
- Keep up the good work.
- There are no stairs and no place where you can get in trouble. It is so beautiful and decorative.
- I wish I could be allowed to check out more than three books.
- I like that it is open until 10.
- I like the Genealogy collection.
- Very nice library.
- I wish I could take out more than three books at a time.
- I think you should be able to check out more than 3 books on a card that doesn't belong to this library.
- Keep up the good work.
- I would be very willing to pay 25 cents for each item charged out or a reciprocal borrower's fee or a reduced rate on library membership ($45.00).
- Very organized and helpful.
- You should be able to check out more than three items.
- The people are very helpful and nice. Seems like I spend more time here each time I come.
- I am aware of the Arlington Heights Library policy that AV materials cannot be checked out by those other than Arlington residents (or those who do not pay an additional fee of approximately $130 per year). Other districts do not have this policy. I would hope that Arlington reconsiders offering complete reciprocal arrangements with other districts.
- Your librarian at the periodicals section was very nice and helpful.
- What would be the likelihood of reciprocal borrowing from all school libraries and services available through schools.
- I wish we would be allowed to check out more than three books at a time- even if for a shorter period than three weeks. I would also like to have recordings available for check out even if only allowed a limited number at a time.

- I love and use tape spoken word almost daily. You have a wonderful selection.
- Barrington has a nice library atmosphere.
- Nice and helpful.
- Your reference books are by far better than my primary library.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Crystal Lake

- The Crystal Lake Library is excellent all the way around.
- Very helpful staff.
- I like it here.
- I recently discovered how much information I could retrieve by different sources by a trial and error method. If information sources were more readily noted and explained, it could help others.
- I think it's great that all the libraries cooperate like they do. Keep up the good work.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Deerfield

- Very helpful.
- Why don't you have local libraries on your computer?
- Wish other patrons could check out videos - Vernon allows all patrons to use videos.
- The people are always friendly.
- I think that there should be a typewriter we can use for kids or everybody actually.
- The computer section should be a lot better.
- I frequently use four or five public libraries in the area, choosing them sometimes for geographical convenience (i.e., I need to be there for some other reason), sometimes because the selection of children's books pleases my daughter more at one place than another, sometimes because my home library doesn't have the materials I seek. I'd be pleased if all materials circulated "out of district" and not only books/records.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Des Plaines

- Would like to be able to renew books.
- I love your children's section and so does my son.

- You have been very courteous and helpful.
- More CDs and records (popular).
- Very comfortable atmosphere.
- To show my appreciation for this library, I have contributed to the Friends of Des Plaines Library each year.

Dundee

- The people make the difference.
- Great idea, sharing materials. That's what it's all about.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Ela

- We like you a lot.
- The people here are helpful.
- The service is good.
- How do I get input on the types of books, records, CDs, movies, etc. that are purchased for the Ela collection?
- We like the people at Ela and feel very relaxed and comfortable here. We wish our tax dollars were going to the improvement of this library rather than Barrington.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Elk Grove

- Why is my use of your library confined only to printed material? It would be convenient to use all services at all libraries in the system.
- Everyone is very nice and helpful.
- Other than it's very convenient considering I spend the majority of my time in this area anyway.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Evanston

- Computer terminal for card catalog was very confusing and librarian was very impatient and irritable when I asked him for help.
- I think your staff is terrific. I have especially found the children's librarian very helpful and patient for my daughter, age 12. I think you're all great.
- Evanston is the best library in Cook County. I am grateful that I can use it.

- The music collection and CD collection are very important for me.
- Great children's collection. This is usually the reason I now use your collection (south branch).

- I love the Evanston Library.
- They are great. I use 5-10 different libraries and I think the more access, the better.
- I appreciate this library, even though my local Rogers Park Library is very good and has new books. My daughter (14) does better here for school assignments.
- Courteous employees.
- I enjoy the video department very much. I would like to see more classical CDs.
- The computer system is terrible.
- This is a very good library.
- Employees are very nice and helpful.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Fox Lake

- Please make the lending period longer. Deerfield has 21-26 days and this is much more convenient. Please make the lending period on interlibrary longer.
- I like the Fox Lake children's room. It's bright, nicely arranged and doesn't bother the adults. Toys for toddlers, puzzles, and lots of room are great for my little ones. The collection is good for my home-schoolers too. The adult section is OK, but I haven't had time to get familiar with it. It's nice to know I can use other libraries too.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Gail Borden

- I am sad that I can only take out three items now and no video or CDs anymore.
- I regularly use Gail Borden and Barrington Library when I need books. I appreciate your allowing us to use your library. I understand why you limit our use but would really appreciate being allowed to take out more materials especially when I belonged to Elgin Genealogical Society and the books and materials I wanted were here.
- I enjoy your highlighting of various subject on the front tables. You have a wonderful children's library which I hope to bring my grandson to in the future (only three months).
- Why no videotapes on the exchange program?

Indian Trails

- It's cheaper than buying books.
- Even though the Ela Library just received a huge amount of dollars from a tax increase both my husband and I feel it probably won't help (children's section especially). The library always is a mess. Books on the floor and not in their proper places. They need new management, not more of our money to waste.
- Good library.
- I am always pleased with the courteous help I receive at this library.
- Very nice.
- The library staff is great. Very helpful and courteous.
- Buy more CDs.
- Indian Trails seems very well managed. Staff is helpful and friendly.
- Everyone at both Indian Trails and Vernon are helpful, friendly, polite. I like both sites and select where I am going as to what other trips I am taking at the time.
- Everything is fine, don't change a thing.
- I feel I should be able to have books held for me at this library because it is so close to where I live.
- Very pleasant, helpful people. An atmosphere of wanting to learn.
- More stuff than the other libraries I go to.
- I prefer this one.
- I would like to borrow the CDs, tapes, and movies.
- I wish I could take AV out there too.
- I really enjoy the children's programs that you have.
- This is a well run library.

* Lake Villa Library has always been responsive to my needs as a teacher and as a person.
* Excellent library - better staff and better selection than my library.
* I would like to be able to check out everything offered by your library, not just certain items.
* Always helpful people to aid you.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Lincolnwood

- I feel bad that to de-magnetize the books (for security) the people checking out have to bend down. This could hurt their backs over an extended period of time. It would be a good business practice to build something higher up for them. Thank you for letting me use the library.
- The atmosphere of this library is conducive to research, studying and reading.
- Nice library.
- The librarians are always pleasant and helpful. Parking facilities are appreciated as well as Sunday hours.
- The staff is very polite and approachable. Books are easily found on shelves.
- Would like to be able to reserve a current best seller.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Morton Grove

- The service at both this library and the Skokie library are very good. All of the librarians are both knowledgeable and helpful.

- I like this library. It often has new books that are hard to find in larger suburban libraries and the staff is friendlier and more helpful than most.
- I think the Morton Grove library is terrific and also close to where I work, so it's possible to stop by on my lunch hour.
- I appreciate the library's service.
- A staff member in the children's library is very rude to the children. A person who apparently dislikes and has no respect for children should not work in a children's department.
- Would like to see separate section for westerns.
- Both my husband and I thoroughly enjoy and appreciate your facility and programs.
- Can find about everything.
- Needs a better selection on classics.
- Can we (Glenview residents) use videotapes?
- Keep up the great work.
- You usually have everything I am in need of.
- You need more new fiction on the shelf. Not today, but usually the Morton Grove librarians are not at all friendly.
- I found the card catalog simpler, better and easier to use than the new computer system. Computers complexify rather than simplify.
- We hope that this library will continue to add new and interesting materials to the overall collection.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Mount Prospect

- Your counter is very helpful. I already know my way around, so I would like to continue to use it.
- Your collection is very up-to-date. The atmosphere within its walls is conducive to quiet study.
- I feel that a 3-book maximum for non-residents should be relaxed.
- It's great to be able to use my card at other libraries. I live closer to Mt. Prospect than to Des Plaines, so it's more convenient.
- It's super that you have no card catalog anymore. The computers are great.
- I hate the three-book limit. Des Plaines doesn't do that to Mount Prospect residents. Hate that your computer does not list books in other libraries. I like the software ease of your computer access (Des Plaines' stinks). Personnel here are very helpful (as they also are at Des Plaines).
- Since I know Mt. Prospect residents are allowed to check out an unlimited number of books in Des Plaines, I feel Des Plaines residents should have the same privilege at Mt. Prospect.
- Please give Des Plaines residents back their full privileges.
- I enjoy the services here at Mt. Prospect. I would like to be able to check out videotapes here.

- You are marvelous.
- You're so helpful and have a great number of books available.
- The easy reading books are great. The reading room is just too cold to stay in for the full time. I really enjoy using your library the best.
- The library is fine and so is the service.
- I hope we will be able to continue using this library.

- Just discovered the young adults library today. It is well hidden. I will bring my older children to use it.
- Thank you for the services you provide.
- Keep up the good work.
- Until I worked at PRK library, I was unaware of all the services a library has to offer. Unfortunately my home library isn't too good at informing its patrons of these services.
- The people at this library have been very helpful and friendly.
- I don't like your policy of paying 25 cents to have you mail a postcard to me to notify that my book has arrived. A phone call or post card should be a part of your service, not a charge to the customer.
- Very efficient.
- The people are helpful.
- Keep up the excellent work. I depend on the record department in the area libraries for most of my course work.
- Park Ridge is great.
- I enjoy the Park Ridge Library very much. The people who work here are most helpful and pleasant.

- Personnel extremely helpful.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Schaumburg

- I would like to take out the educational videos.
- I like the quiet study room and the fact that the periodicals are not all out because this makes them available to use. Also, there are more Infotrac terminals than Mt. Prospect.
- I would love to have access to your cassettes and videos.
- It's great.
- I find the Schaumburg Library to be very helpful with my research needs. The employees are friendly and knowledgeable. I have never seen anything on bulletin boards on donating books to the library and would like to know more about that.
- Very helpful reference librarians. Very well lit and pleasant library. Roomier than Barrington. Better book selection in several areas.
- Put me back in the Schaumburg District.
- This library is one of the best I have ever visited. I have used various public libraries (Arlington Heights, Lake Forest, Bartlett, Elgin and ECC). The only other library that could possibly equal this one is SIU's in Carbondale.
- Let out of area people be able to check out CDs.
- Great library.
- Would like to have access to AV section also.
- Big help offering educational tapes and computers. Thank you.
- Great library.
- Like your selection.

- Schaumburg has the finest library.
- Would like to see computer catalog system.
- I would like to see your service expand to include checking out of videos, tapes.
- Fantastic.
- It's nice that it is so organized.
- I moved from Evanston to Roselle two years ago. The Schaumburg Library is the closest thing to the Northwestern University library I have found since moving here. I'm very glad to have a reciprocal agreement with this library.
- We would appreciate if you could ask for an Indian newspaper called Times of India and also we could borrow video cassettes on Roselle cards.
- We live in Roselle and we'd like to check out videos.
- Thus far, I have been very impressed with your library. You have a very good business section plus you have many periodicals from all areas and have very polite, informed and helpful staff.
- I would like to borrow videos even if I have to pay a nominal amount.
- How about a little shelf in the restroom stalls to put books while using same. That way, no books would get dirty or wet.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Skokie

- It's great.
- Enjoy programs. Would like to know more about computer location of books.

- You have a wonderful selection.
- While there is an impressive collection of AV cassettes, I would like to see some blues cassettes added to the collection.
- Service in Skokie is excellent.
- Wonderful library. Up-to-date materials. Easy access. Parking. Pleasant atmosphere.
- Good selection and help given.
- You have better travel and B&B guides than Evanston.
- They are great.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Vernon

- I like the computer to find books about certain subjects.
- Let's see an expansion in size ASAP. It's getting crowded.
- Children under 15 should be required to be leashed and muzzled or left in the parking lot.
- The best invention ever is the public library.
- Other libraries should be as helpful and inform patrons of the available services. Most don't.
- Being an Arlington Heights patron, I am quite privileged because of their wide range of selection of materials they have. But it is unfortunate for NSLS patrons who want to use AHK but are only allowed to check out three books at a time. A library is for everyone. I wouldn't particularly mind if another patron outside AHK had materials I wanted, I would simply have to wait. It's only a small inconvenience of time and it really doesn't matter.

- Services are great. My favorite place to come.
- Being retired I greatly appreciate being able to visit this library as well as our Warren-Newport. Before I retired I used many of the materials here in teaching. We (my husband and I) have been coming here for 45 years, even when we had to purchase our own library card.

- I have appreciated your help during the years I've come to your library. Thank you.
- Couldn't be much better after 40 years of library participation here.
- Appreciate the warm and friendly attitude the employees have. They are always willing to help. Terrific for education.
- Great library.
- Interlibrary use is a great service. Very convenient.

Q38. Is there anything else about library services that you would like to tell us? (HOST LIBRARY)

Wilmette

- I find the three-book limit almost punitive. I'm a responsible library user. I live nearby, love your library and find the three-item limit a terrible constraint.

* It is excellent.
* Get door to reading room to close right.
* Keep up the fine work at checkout - fast efficient, customer oriented. Keep the current books. Well organized and easily accessible. No "ransom" rental fees for current books. You allow 14 days on most of your contemporary fiction. Working people can't read Michener or Follett in seven days.
* I hope the library system doesn't discontinue this marvelous service.
* The librarians in Northfield are most helpful, personable and knowledgeable - I find almost anything I need with their help.
* You are terrific. Thank you for asking.
* There is a warm helpful atmosphere in the Winnetka library. This is noticeable and appreciated.

Algonquin

* Big help offering educational tapes and computers. Thank you.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Arlington Heights

- Why are you closed on Friday nights?
- Buy more CDs.
- I feel I should be able to have books held for me at this library because it is so close to where I live.
- I would like to borrow the CDs, tapes, and movies.
- I wish I could take AV out there too.
- I appreciate the library very much.
- I'm glad interlibrary loan is available.
- Allow CDs to be checked out by all card holders.
- This is a great library. Everyone is helpful.
- Your fiction selection is excellent as are your children's programming. This is an exceptional library.
- Being an Arlington Heights patron, I am quite privileged because of their wide range of selection of materials they have. But it is unfortunate for NSLS patrons who want to use AHK but are only allowed to check out three books at a time. A library is for everyone. I wouldn't particularly mind if another patron outside AHK had materials I wanted, I would simply have to wait. It's only a small inconvenience of time and it really doesn't matter.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Barrington

- The people working here are nice.
- You should be able to check out more than three items.
- The service is good.
- How do I get input on the types of books, records, CDs, movies, etc. that are purchased for the Ela collection?
- We like the people at Ela and feel very relaxed and comfortable here. We wish our tax dollars were going to the improvement of this library rather than Barrington.
- I would like to have more Spanish magazines.
- We love the extensive things offered and children's area. Different things than are available at our library.
- I have always liked the atmosphere. I have attended some of the special programs and the friendliness of the people who work here. It is an excellent library and I am grateful to be able to use its facilities.
- Very helpful reference librarians. Very well lit and pleasant library. Roomier than Barrington. Better book selection in several areas.
- Schaumburg has the finest library.
- The librarians at Wauconda are very friendly and helpful in locating materials.
- It's a wonderful town library.
- We enjoy it.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Cook Memorial

- The people here are helpful.
- They are great. Keep up the good work.
- Thanks for the opportunity to participate in your wonderful library.
- I like the computer to find books about certain subjects.
- Let's see an expansion in size ASAP. It's getting crowded.

Crystal Lake

* We like you a lot.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Deerfield

- I find the staff at this library especially helpful and friendly. The library has most of the materials I need for my work and if Highland Park doesn't have something I need the people who work here are willing to locate the material for me.
- I'm grateful for the opportunity to use other libraries. I have been using this library since I was in college and it is my favorite.
- Thoroughly enjoy and appreciate this.
- Very good.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Des Plaines

- You have the best selection of materials and machines in the area; also the people here (personnel and patrons) are more courteous.
- Your librarian at the periodicals section was very nice and helpful.
- Your collection is very up-to-date. The atmosphere within its walls are conducive to quiet study.
- I feel that a 3-book maximum for non-residents should be relaxed.
- It's great to be able to use my card at other libraries. I live closer to Mt. Prospect than to Des Plaines, so it's more convenient.
- It's super that you have no card catalog anymore. The computers are great.
- I hate the three-book limit. Des Plaines doesn't do that to Mount Prospect residents. Hate that your computer does not list books in other libraries. I like the software ease of your computer access (Des Plaines' stinks). Personnel here are very helpful (as they also are at Des Plaines).
- Since I know Mt. Prospect residents are allowed to check out an unlimited number of books in Des Plaines, I feel Des Plaines residents should have the same privilege at Mt. Prospect.
- Please give Des Plaines residents back their full privileges.
- I enjoy the services here at Mt. Prospect. I would like to be able to check out videotapes here.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Dundee

- I like this library because they offer so much for the children. It's close to home and my children look forward to coming every week and attending story time. If I had to use my home library I probably wouldn't go as often because it's so far away.
- I regularly use Gail Borden and Barrington Library when I need books. I appreciate your allowing us to use your library. I understand why you limit our use but would really appreciate being allowed to take out more materials especially when I belonged to Elgin Genealogical Society and the books and materials I wanted were here.
- I enjoy your highlighting of various subject on the front tables. You have a wonderful children's library which I hope to bring my grandson to in the future (only three months).
- Why no videotapes on the exchange program?

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Ela

* Keep up the good work.
* You do a fine job in Barrington.
* Interlibrary loans have become extremely beneficial to me as a graduate student in Library Science. It certainly is the wave of the future and I do intend to continue to reap the benefits.
* Pleasant attitudes and atmosphere. It really adds to our family's books searches.
* Even though the Ela Library just received a huge amount of dollars from a tax increase both my husband and I feel it probably won't help (children's section especially). The library always is a mess. Books on the floor and not in their proper places. They need new management, not more of our money to waste.

Elk Grove

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Evanston

- Highland Park has the most courteous and helpful staff in Chicagoland.
- How about a little shelf in the restroom stalls to put books while using same. That way, no books would get dirty or wet.
- Let us keep borrowing. Thanks.
- You have better travel and B&B guides than Evanston.
- I find the three-book limit almost punitive. I'm a responsible library user. I live nearby, love your library and find the three-item limit a terrible constraint.
- I like your special displays. Your staff is very helpful and friendly (most of them). The set-up is excellent, as is your collection of mysteries.
- I would like to be able to borrow more than three items per visit.
- Except for non-computerized catalog system there are no complaints. Staff is much more professional and helpful than those at Evanston.
- You serve well and conveniently - have always been very pleased with materials available.
- Great children's selection. Quiet and not as crowded as Evanston.
- It's great.
- I'm glad you're open on Sunday.
- I enjoy this library particularly.
- Allow Evanston residents to check out more than three books on a card at one time.
- Please let us check out more than three items. Skokie Library lets us take out unlimited items.
- We appreciate the privilege of having access to this library. Our thanks.
- Thanks for being available and very helpful.

- I support the Lincolnwood library through the art auction to computer club and offer direct aid to librarians as regard computer needs, having helped with their public domain library and voting support to club donations.

- Can we (Glenview residents) use videotapes?
- You have one wonderful library.

- It is also close to work and I wish I could take out videos etc and not be restricted. This is one of the best libraries I've been to.
- Keep up the good work.
- There are no stairs and no place where you can get in trouble. It is so beautiful and decorative.
- I wish I could be allowed to check out more than three books.
- I wish we would be allowed to check out more than three books at a time-even if for a shorter period than three weeks. I would also like to have recordings available for check out even if only allowed a limited number at a time.

- We attend and enjoy educational lectures at all libraries.
- They are all very nice here.
- I think your children's services are wonderful.
- Could we have some food demonstrations?
- Everyone was extremely pleasant.
- Children under 15 should be required to be leashed and muzzled or left in the parking lot.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Lake Bluff

- I frequently use four or five public libraries in the area, choosing them sometimes for geographical convenience (i.e., I need to be there for some other reason), sometimes because the selection of children's books pleases my daughter more at one place than another, sometimes because my home library doesn't have the materials I seek. I'd be pleased if all materials circulated "out of district" and not only books/records.
- The ladies at both Lake Forest and Lake Bluff are most accommodating and helpful - it's a pleasure to meet with them.
- I love visiting the library.
- Both the Lake Forest and Lake Bluff libraries are pleasures.
- It would be nice if you were able to loan out paintings too.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

McHenry

- The Crystal Lake Library is excellent all the way around.
- Very helpful staff.
- I recently discovered how much information I could retrieve by different sources by a trial and error method. If information sources were more readily noted and explained, it could help others.
- I think it's great that all the libraries cooperate like they do. Keep up the good work.
- Please make the lending period longer. Deerfield has 21-26 days and this is much more convenient. Please make the lending period on interlibrary longer.

Mount Prospect

- I have used your education collection for graduate research classes and research papers.
- Thank you for the generosity to Mt. Prospect.
- Please allow nonresidents to use the personal computers. They often sit idle. You also have the only Macintosh computer in the area that I am aware of.
- Great library.
- I like that it is open until 10.
- Great library.
- I don't like your policy of paying 25 cents to have you mail a postcard to me to notify that my book has arrived. A phone call or post card should be a part of your service, not a charge to the customer.
- I enjoy the Park Ridge Library very much. The people who work here are most helpful and pleasant.
- I hope the new expanded library to open in 1991 remains as friendly and easy to use.
- They are friendly and have no restrictions.
- I like the quiet study room and the fact that the periodicals are not all out because this makes them available to use. Also, there are more Infotrac terminals than Mt. Prospect.

- You need a Xerox machine in the History room.
- Freedom to borrow books at any library anytime (limited to 3 books at one library at a time) and anyplace. Also purchase a master library card for use in all libraries at a reasonable fee.
- I enjoy the depth of materials and service level of Arlington Library.
- Arlington Heights Library only allows up to 3 books/card for checkout and will not allow any use of any AV equipment without their card - even if the computer or equipment is not being used or checked out.
- Very nice library.
- I think you should be able to check out more than 3 books on a card that doesn't belong to this library.
- I am aware of the Arlington Heights Library policy that AV materials cannot be checked out by those other than Arlington residents (or those who do not pay an additional fee of approximately $130 per year). Other districts do not have this policy. I would hope that Arlington reconsiders offering complete reciprocal arrangements with other districts.
- What would be the likelihood of reciprocal borrowing from all school libraries and services available through schools?
- Barrington has a nice library atmosphere.
- I would like to interlibrary loan at Rolling Meadows with a Palatine card.
- Keep up the excellent work. Thank you for your help.
- Keep up the good work.
- Educational video program for school age children; i.e., reading, math, art and music.
- Friendly personnel. Children's play area is very nice.
- I am very pleased with the service I have received at this library.
- The people are very helpful and courteous - I enjoy talking to them.
- Keep up the good work.

Schaumburg

- I like the Genealogy collection.
- Very organized and helpful.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

Skokie

- Great children's collection. This is usually the reason I now use your collection (south branch).
- The computer system is terrible.
- Would like to be able to reserve a current best seller.
- The service at both this library and the Skokie library are very good. All of the librarians are both knowledgeable and helpful.
- I like this library. It often has new books that are hard to find in larger suburban libraries and the staff is friendlier and more helpful than most.
- A staff member in the children's library is very rude to the children. A person who apparently dislikes and has no respect for children should not work in a children's department.
- Would like to see separate section for westerns.
- You need more new fiction on the shelf. Not today, but usually the Morton Grove librarians are not at all friendly.
- I found the card catalog simpler, better and easier to use than the new computer system. Computers complexify rather than simplify.
- We hope that this library will continue to add new and interesting materials to the overall collection.
- The easy reading books are great. The reading room is just too cold to stay in for the full time. I really enjoy using your library the best.
- Your library has something good - telephone books for the other U.S. cities.
- I'd like to borrow more than three books.

Q38. Is there anything else about library services that you would like to tell us? (HOME LIBRARY)

- Why don't you have local libraries on your computer?
- Wish other patrons could check out videos - Vernon allows all patrons to use videos.
- The people are always friendly.
- The computer section should be a lot better.
- This is a great library. I like the classes (Great Books), reading areas at the front, and the computerized index.
- I am always pleased with the courteous help I receive at this library.
- The library staff is great. Very helpful and courteous.
- Everyone at both Indian Trails and Vernon are helpful, friendly, polite. I like both sites and select where I am going as to what other trips I am taking at the time.
- More stuff than the other libraries I go to.
- I prefer this one.
- I really enjoy the children's programs that you have.
- This is a well run library.
- It is much bigger than my home library and has a bigger selection.
- Interlibrary use is a great service. Very convenient.

Warren-Newport

- Very convenient.
- I like your genealogy section.
- Keep up the good work.
- Your reference department is extremely helpful whenever I need information. Very accommodating.
- We would like to be able to check out videotapes at this library.
- Wonderful selection.
- Great library.
- Why can't Warren/Newport get its library referendum passed? It's appalling.
- I think that there should be a typewriter we can use for kids or everybody actually.
- Please expand selection.
- If the funds and personnel were available, I'd like to see the library open for 1/2 day on Sunday.
- Excellent library - better staff and better selection than my library.
- Being retired I greatly appreciate being able to visit this library as well as our Warren-Newport. Before I retired I used many of the materials here in teaching. We (my husband and I) have been coming here for 45 years, even when we had to purchase our own library card.
- Waukegan is the best library I've been in.
- Couldn't be much better after 40 years of library participation here.
- Appreciate the warm and friendly attitude the employees have. They are always willing to help. Terrific for education.

- I really enjoy Evanston's collections.
- I get very good service at the Glencoe Library.
- Nice library.
- You should be able to search for a book at any library, not just your home library.
- The people at Skokie are exceptional in their service.
- I like the architecture of the library. The level of the books is what I like best. This is a research library.
- Very agreeable ambience. Excellent selection. A pleasure to visit.
- Service in Skokie is excellent.
- The service is very helpful.
- Keep up the fine work at checkout - fast, efficient, customer oriented. Keep the current books. Well organized and easily accessible. No "ransom" rental fees for current books. You allow 14 days on most of your contemporary fiction. Working people can't read Michener or Follett in seven days.
